

TSSTrip: Tourism Security and
Sustainability Training Innovations through
Academia and Industry Co-operation

NEWSLETTER NO 2 /2024

Project Ambitions

The project is related to the development of university digital micro-credential courses for targeted, flexible acquisition of knowledge, skills, and competencies in sustainable and safety tourism to meet new and emerging needs in the labour market and make it possible for individuals to fill the skill gaps they need to succeed in a fast-changing environment and tourism industry.

TSSTRIP PROJECT

TSSTrip project

Will develop an experiential learning intervention for building the capacity of higher education students to adopt safe travel service practices and to design solutions for tourism sustainability in everyday and professional activities.

Target groups

- Higher education students
- Higher education instructors and organizations.
-

Duration

24 months :
1/09/2023-30/09/2025

Photo by Flo Maderebner

Project outcomes:

- Digital micro-credentials training courses in safety and sustainable tourism
- Digital educational ecosystem and learning activities targeting student, building awareness, green skills and competencies on safe tourism services
- Online training and content support targeting students and educators, facilitating the integration of innovative educational content in tourism education

Project partners

Contractor: Association of Latvian Travel Agents (LV)

Partners:

Latvian Cultural college (LV)
FH Joanneum (AT)
Burgas Free University (BG)
Düzce University (TR)

More information:

Tsstrip.com

FB: @TSSTrip

Current activities :

- The development of WP2 (Review) has been completed and the identification of needs and gaps and aspects for updating and improving tourism and hospitality training in safety and sustainable development, which will be used in the development of content for micro-credentials , has been published for the partners and in the project results platform.
- The Manual for microcredential development and curriculum templates were developed
- Project meetings in Antalya, Türkiye and Burgas, Bulgaria
